

# Pre-Kindergarten

## Curriculum Sample

A Grade Ahead's year-round pre-kindergarten program is designed to provide your child with a firm educational foundation and a love of learning. Our monthly curriculum incorporate both math and English development skills that increase in difficulty as the student progresses through the program.

Each week will have worksheets that include basic phonics, counting, and directions that your child will need to understand to progress successfully through school. In these next pages, we offer a closer look at what our homework offers as well as a specific example of a week your child may see.

## Homework

Each week, four days of homework are given to apply concepts from that week's lesson and reinforce the topic.

Date: \_\_\_\_\_

Start Time: \_\_\_\_\_

End Time: \_\_\_\_\_

Score: \_\_\_\_/15

1-3. Color your favorite picture for each letter. Say the name of the pictures and write the letter 5 times.

4-5. Color your favorite picture for each letter. Say the name of the pictures and write the letter 5 times.

6. Join the dots. What did you make? Color it.

7-12. Circle the letters that match in each row:
